ACR Opportunity Fund SCHEDULE OF INVESTMENTS - Continued As of May 31, 2024 (Unaudited)

*Non-income producing security.

¹Foreign security denominated in U.S. Dollars.

²All or a portion of this security is segregated as collateral for securities sold short. The market value of the securities pledged as collateral was \$10,561,557, which represents 14.9% of total net assets of the Fund.

³Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities are restricted and may be resold in transactions exempt from registration normally to qualified institutional buyers. The total value of these securities is \$1.863.918 which represents 2.6% of total net assets of the Fund.

⁴The value of these securities was determined using significant unobservable inputs. These are reported as Level 3 securities in the Fair Value Hierarchy.

⁵Post-reorganization assets.

⁶Security in a privately owned company.

⁷The rate is the annualized seven-day yield at period end.

See accompanying Notes to Financial Statements.

ACR Funds NOTES TO FINANCIAL STATEMENTS May 31, 2024

Note 1 - Organization

ACR Opportunity Fund (formerly the ACR Multi-Strategy Quality Return (MQR) Fund) and ACR Equity International Fund (formerly ACR International Quality Return (IQR) Fund) (each a "Fund" and collectively the "Funds") are organized as a non-diversified series of Investment Managers Series Trust II, a Delaware statutory trust (the "Trust") which is registered as an open-end management investment company under the Investment Company Act of 1940, as amended (the "1940 Act").

The ACR Opportunity Fund seeks to preserve capital from permanent loss during periods of economic decline, and to provide above average absolute and relative returns in the long run. The Fund commenced investment operations on December 31, 2014, with two classes of shares, Class A and Class I. Effective as of the close of business on June 11, 2021, Class A shares were converted into Class I shares. Class A shares were subsequently terminated.

The ACR Equity International Fund seeks to protect capital from permanent impairment while providing a return above both the Fund's cost of capital and above the Fund's benchmark over a full market cycle. The Fund commenced investment operations on December 30, 2016, with two classes of shares, Class A and Class I. Effective as of the close of business on June 11, 2021, Class A shares were converted into Class I shares. Class A shares were subsequently terminated.

The shares of each class represent an interest in the same portfolio of investments of the Funds and have equal rights as to voting, redemptions, dividends and liquidation, subject to the approval of the Trustees. Income, expenses (other than expenses attributable to a specific class) and realized and unrealized gains and losses on investments are allocated to each class of shares in proportion to their relative net assets. Shareholders of a class that bears distribution and service expenses under the terms of a distribution plan have exclusive voting rights to that distribution plan.

Each Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (FASB) Accounting Standard Codification Topic 946 "Financial Services—Investment Companies."

Note 2 – Accounting Policies

The following is a summary of the significant accounting policies consistently followed by the Funds in the preparation of their financial statements. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from these estimates.

(a) Valuation of Investments

The Funds value equity securities at the last reported sale price on the principal exchange or in the principal over the counter ("OTC") market in which such securities are traded, as of the close of regular trading on the NYSE on the day the securities are being valued or, if the last-quoted sales price is not readily available, the securities will be valued at the last bid or the mean between the last available bid and ask price. Securities traded on the NASDAQ are valued at the NASDAQ Official Closing Price ("NOCP"). Investments in open-end investment companies are valued at the daily closing net asset value of the respective investment company. Options are valued at the mean between the last available bid and asked prices used. Debt securities are valued by utilizing a price supplied by independent pricing service providers. The independent pricing service providers may use various valuation methodologies including matrix pricing and other analytical pricing models as well as market transactions and dealer quotations. These models generally consider such factors as yields or prices of bonds of comparable

quality, type of issue, coupon, maturity, ratings and general market conditions. If a price is not readily available for a portfolio security, the security will be valued at fair value (the amount which the Funds might reasonably expect to receive for the security upon its current sale). The Board of Trustees has designated the Advisor as the Fund's valuation designee (the "Valuation Designee") to make all fair value determinations with respect to the Fund's portfolio investments, subject to the Board's oversight. As the Valuation Designee, the Advisor has adopted and implemented policies and procedures to be followed when the Fund must utilize fair value pricing.

(b) Short Sales

Short sales are transactions under which the Funds sell a security it does not own in anticipation of a decline in the value of that security. To complete such a transaction, the Funds must borrow the security to make delivery to the buyer. The Funds then are obligated to replace the security borrowed by purchasing the security at market price at the time of replacement. The price at such time may be more or less than the price at which the security was sold by the Funds. When a security is sold short a decrease in the value of the security will be recognized as a gain and an increase in the value of the security will be recognized as a loss, which is potentially limitless. Until the security is replaced, the Funds are required to pay the lender amounts equal to dividend or interest that accrue during the period of the loan which is recorded as an expense. To borrow the security, the Funds also may be required to pay a premium or an interest fee, which are recorded as interest expense. Cash or securities are segregated for the broker to meet the necessary margin requirements. The Funds are subject to the risk that it may not always be able to close out a short position at a particular time or at an acceptable price.

(c) Exchange Traded Funds ("ETFs")

ETFs typically trade on securities exchanges and their shares may, at times, trade at a premium or discount to their net asset values. In addition, an ETF may not replicate exactly the performance of the benchmark index it seeks to track for a number of reasons, including transaction costs incurred by the ETF, the temporary unavailability of certain index securities in the secondary market or discrepancies between the ETF and the index with respect to the weighting of securities or the number of securities held. Investing in ETFs, which are investment companies, may involve duplication of advisory fees and certain other expenses. As a result, Fund shareholders indirectly bear their proportionate share of these acquired expenses. Therefore, the cost of investing in the Fund will be higher than the cost of investing directly in ETFs and may be higher than other mutual funds that invest directly in securities.

Each ETF in which the Fund invests is subject to specific risks, depending on the nature of the ETF. Each ETF is subject to the risks associated with direct ownership of the securities comprising the index on which the ETF is based. These risks could include liquidity risk, sector risk as well as risks associated with fixed-income securities.

(d) Preferred Stocks

Preferred stocks are a class of stock having a preference over common stock as to the payment of dividends and the recovery of investment in the event a company is liquidated, although preferred stock is usually subordinate to the debt securities of the issuer. Preferred stock typically does not possess voting rights and its market value may change based on changes in interest rates. If interest rates rise, the fixed dividend on preferred stocks may be less attractive, causing the price of preferred stocks to decline. Preferred stock may have mandatory sinking fund provisions, as well as call/redemption provisions prior to maturity, a negative feature when interest rates decline.

(e) Options

The Funds may write or purchase options contracts primarily to enhance the Funds' returns or reduce volatility. In addition, the Funds may utilize options in an attempt to generate gains from option premiums or to reduce overall portfolio risk. When a Fund writes or purchases an option, an amount equal to the premium received or paid by a Fund is recorded as a liability or an asset and is subsequently adjusted to the current market value of the option

written or purchased. Premiums received or paid from writing or purchasing options which expire unexercised are treated by a Fund on the expiration date as realized gains or losses. The difference between the premium and the amount paid or received on effecting a closing purchase or sale transaction, including brokerage commissions, is also treated as a realized gain or loss. If an option is exercised, the premium paid or received is added to the cost of the purchase or proceeds from the sale in determining whether a Fund has realized a gain or a loss on investment transactions. A Fund, as a writer of an option, may have no control over whether the underlying securities may be sold (call) or purchased (put) and as a result bears the market risk of an unfavorable change in the price of the security underlying the written option.

(f) Investment Transactions, Investment Income and Expenses

Investment transactions are accounted for on the trade date. Realized gains and losses on investments are determined on the identified cost basis. Dividend income is recorded net of applicable withholding taxes on the exdividend date and interest income is recorded on an accrual basis. Withholding taxes on foreign dividends, if applicable, are paid (a portion of which may be reclaimable) or provided for in accordance with the applicable country's tax rules and rates and are disclosed in the Statements of Operations. Withholding tax reclaims are filed in certain countries to recover a portion of the amounts previously withheld. The Funds record a reclaim receivable based on a number of factors, including a jurisdiction's legal obligation to pay reclaims as well as payment history and market convention. Discounts or premiums on debt securities are accreted or amortized to interest income over the lives of the respective securities using the effective interest method. Income and expenses of the Funds are allocated on a pro rata basis to each class of shares relative net assets, except for distribution and service fees which are unique to each class of shares. Expenses incurred by the Trust with respect to more than one Fund are allocated in proportion to the net assets of each Fund except where allocation of direct expenses to each Fund or an alternative allocation method can be more appropriately made.

(g) Federal Income Taxes

Each Fund intends to comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its net investment income and any net realized gains to its shareholders. Therefore, no provision is made for federal income or excise taxes. Due to the timing of dividend distributions and the differences in accounting for income and realized gains and losses for financial statement and federal income tax purposes, the fiscal year in which amounts are distributed may differ from the year in which the income and realized gains and losses are recorded by the Funds.

Accounting for Uncertainty in Income Taxes (the "Income Tax Statement") requires an evaluation of tax positions taken (or expected to be taken) in the course of preparing a Fund's tax returns to determine whether these positions meet a "more-likely-than-not" standard that, based on the technical merits, have a more than fifty percent likelihood of being sustained by a taxing authority upon examination. A tax position that meets the "more-likely-than-not" recognition threshold is measured to determine the amount of benefit to recognize in the financial statements. The Funds recognize interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the Statements of Operations.

The Income Tax Statement requires management of the Funds to analyze tax positions taken in the prior three open tax years, if any, and tax positions expected to be taken in the Funds' current tax year, as defined by the IRS statute of limitations for all major jurisdictions, including federal tax authorities and certain state tax authorities. As of May 31, 2024 and during the prior three tax years, the Funds did not have a liability for any unrecognized tax benefits. The Funds have no examination in progress and are not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

(h) Distributions to Shareholders

The Funds will make distributions of net investment income and net capital gains, if any, at least annually. Distributions to shareholders are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from GAAP.

The character of distributions made during the year from net investment income or net realized gains may differ from the characterization for federal income tax purposes due to differences in the recognition of income expense and gain (loss) items for financial statement and tax purposes.

(i) Illiquid Securities

Pursuant to Rule 22e-4 under the 1940 Act, the Funds have adopted a Liquidity Risk Management Program ("LRMP") that requires, among other things, that the Funds limit their illiquid investments that are assets to no more than 15% of net assets. An illiquid investment is any security which may not reasonably be expected to be sold or disposed of in current market conditions in seven calendar days or less without the sale or disposition significantly changing the market value of the investment. If the Advisor, at any time, determines that the value of illiquid securities held by a Fund exceeds 15% of its net asset value, the Advisor will take such steps as it considers appropriate to reduce them as soon as reasonably practicable in accordance with the Funds' written LRMP.

(j) Use of Estimates

The presentation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

Note 3 – Investment Advisory and Other Agreements

The Trust, on behalf of the Funds, entered into an Investment Advisory Agreement (the "Agreement") with ACR Alpine Capital Research, LLC (the "Advisor"). Under the terms of the Agreement, the Funds pay a monthly investment advisory fee to the Advisor based on each Fund's average daily net assets. The annual rates are listed by Fund in the table below. The Advisor has contractually agreed to waive its fee and/or pay for operating expenses (excluding any taxes, leverage interest, acquired fund fees and expenses (as determined in accordance with Form N-1A), professional fees related to services for the collection of foreign tax reclaims, dividend and interest expense on short sales, brokerage commissions, professional fees related to services for the collection of foreign tax reclaims, expenses incurred in connection with any merger or reorganization, and extraordinary expenses such as litigation expenses) in order to limit total annual operating expenses of each fund. This agreement is in effect until March 31, 2025 for the Funds, and it may be terminated before that date only by the Trust's Board of Trustees. The table below contains the annual investment advisory fees and expense cap by Fund.

	Investment	Total Limit on Annual
	Advisory Fees	Operating Expenses †
ACR Opportunity Fund	1.00%	1.25%
ACR Equity International Fund	1.00%	1.10%

[†]The total limit on annual operating expenses is calculated based on each Fund's average daily net assets.

For the six months ended May 31, 2024, the Advisor waived a portion of its advisory fees totaling \$68,208 for the ACR Opportunity Fund and \$130,660 for the ACR Equity International Fund. The Advisor is permitted to seek reimbursement from the Funds, subject to certain limitations, of fees waived or payments made to the Funds for a

period ending three full fiscal years after the date of the waiver or payment. This reimbursement may be requested from the Funds if the reimbursement will not cause the Funds' annual expense ratio to exceed the lesser of (a) the expense limitation amount in effect at the time such fees were waived or payments made, or (b) the expense limitation amount in effect at the time of the reimbursement. At May 31, 2024 the amount of these potentially recoverable expenses was \$552,432 and \$891,433 for the ACR Opportunity Fund and the ACR Equity International Fund, respectively. The potential recoverable amount is noted as "Commitments and contingencies" as reported on the Statement of Assets and Liabilities. The Advisor may recapture all or a portion of this amount no later than November 30 of the years stated below:

	ACR Oppo	ortunity Fund	ACR Equity International Fund			
2024	\$	182,624	\$	222,146		
2025		159,090		289,290		
2026		142,510	249,33			
2027		68,208		130,660		
Total	\$	552,432	\$	891,433		

UMB Fund Services, Inc. ("UMBFS") serves as the Funds' fund accountant, transfer agent and co-administrator; and Mutual Fund Administration, LLC ("MFAC") serves as the Funds' other co-administrator. UMB Bank, n.a., an affiliate of UMBFS, serves as the Funds' custodian. The Funds' allocated fees incurred for fund accounting, fund administration, transfer agency and custody services for the six months ended May 31, 2024, are reported on the Statements of Operations.

IMST Distributors, LLC, a wholly owned subsidiary of Foreside Financial Group, LLC (d/b/a ACA Group), serves as the Funds' distributor (the "Distributor"). The Distributor does not receive compensation from the Funds for its distribution services; the Advisor pays the Distributor a fee for its distribution-related services.

Certain trustees and officers of the Trust are employees of UMBFS or MFAC. The Funds do not compensate trustees and officers affiliated with the Funds' co-administrators. For the six months ended May 31, 2024, the Funds' allocated fees incurred to Trustees who are not affiliated with the Funds' co-administrators are reported on the Statements of Operations.

The Funds' Board of Trustees has adopted a Deferred Compensation Plan (the "Plan") for the Independent Trustees that enables Trustees to elect to receive payment in cash or the option to select various fund(s) in the Trust in which their deferred accounts shall be deemed to be invested. If a trustee elects to defer payment, the Plan provides for the creation of a deferred payment account. The Funds' liability for these amounts is adjusted for market value changes in the invested fund(s) and remains a liability to the Funds until distributed in accordance with the Plan. The Trustees Deferred compensation liability under the Plan constitutes a general unsecured obligation of each Fund and is disclosed in the Statements of Assets and Liabilities. Contributions made under the plan and the change in unrealized appreciation/depreciation and income are included in the Trustees' fees and expenses in the Statements of Operations.

Dziura Compliance Consulting, LLC provides Chief Compliance Officer ("CCO") services to the Trust. The Funds' allocated fees incurred for CCO services for the six months ended May 31, 2024, are reported on the Statements of Operations.

Note 4 – Federal Income Taxes

At May 31, 2024, the cost of securities and the proceeds from securities sold short, on a tax basis and gross unrealized appreciation and depreciation of investments and securities sold short for federal income tax purposes were as follows:

	ACR Opportunity Fund	ACR E	Equity International Fund*
Cost of investments and proceeds from securities sold short	\$ 58,776,600	\$	87,480,553
Gross unrealized appreciation Gross unrealized depreciation	\$ 17,391,999 (6,098,211)	\$	15,645,647 (15,317,425)
Net unrealized appreciation (depreciation) on investments and securities sold short	\$ 11,293,788	\$	328,222

^{*}The Fund did not hold any securities sold short during the six months ended May 31, 2024.

The difference between cost amounts for financial statement and federal income tax purposes is due primarily to timing differences in recognizing certain gains and losses in security transactions.

As of November 30, 2023, the components of accumulated earnings (deficit) on a tax basis were as follows:

	 ACR Opportunity Fund	ACR Equity International Fund
Undistributed ordinary income	\$ 1,150,410	\$ 2,510,239
Undistributed long-term capital gains	 441,458	
Accumulated earnings	1,591,868	2,510,239
Accumulated capital and other losses Unrealized appreciation (depreciation) on	-	(883,142)
investments and securities sold short Unrealized appreciation (depreciation) on	2,303,833	(9,682,093)
foreign currency translations	(2,917)	(9,831)
Unrealized deferred compensation	 (26,693)	(25,750)
Total accumulated earnings (deficit)	\$ 3,866,091	\$ (8,090,577)

At November 30, 2023, the Funds had non-expiring capital loss carryforwards as follows:

	Not Subject to Expiration:						
Fund	Sł	nort-Term	Long-Term				
ACR Opportunity Fund	\$	-	-				
ACR Equity International Fund		861.532	21.610				

The tax character of distributions paid during the years ended November 30, 2023 and November 30, 2022 were as follows:

	ACR Oppo	ortunity	Fund	ACR Equity International Fund				
Distribution paid from:	2023		2022	2023		2022		
Ordinary income	\$ 829,679	\$	399,519	\$	892,282	\$	428,785	
Net long-term capital gains	559,350		-		-		2,656,682	
Total taxable distributions	\$ 1,389,029	\$	399,519	\$	892,292	\$	3,085,467	

Note 5 – Redemption Fee

The Funds may impose a redemption fee of 2.00% of the total redemption amount on all shares redeemed within 90 days of purchase. For the six months ended May 31, 2024 and the year ended November 30, 2023, respectively, the ACR Opportunity Fund received \$0 and \$293 in redemption fees, and the ACR Equity International Fund received \$0 and \$162 in redemption fees.

Note 6 - Investment Transactions

For the six months ended May 31, 2024, purchases and sales of investments, excluding short-term investments, were as follows:

				Proceeds f	rom		
				Securities :	Sold	Cover S	hort
	P	urchases	Sales	Short		Securities	
ACR Opportunity Fund	\$	15,615,818	\$ 9,725,080	\$	-	\$	-
ACR Equity International Fund		16,666,458	20,383,012		_		-

Note 7 – Shareholder Servicing Plan

The Trust, on behalf of the Funds, has adopted a Shareholder Servicing Plan to pay a fee at an annual rate of up to 0.15% of average daily net assets of Class I shares serviced by shareholder servicing agents who provide administrative and support services to their customers.

For the six months ended May 31, 2024, shareholder servicing fees incurred are disclosed on the Statements of Operations.

Note 8 – Indemnifications

In the normal course of business, the Funds enter into contracts that contain a variety of representations which provide general indemnifications. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds expect the risk of loss to be remote.

Note 9 – Fair Value Measurements and Disclosure

Fair Value Measurements and Disclosures defines fair value, establishes a framework for measuring fair value in accordance with GAAP, and expands disclosure about fair value measurements. It also provides guidance on determining when there has been a significant decrease in the volume and level of activity for an asset or a liability, when a transaction is not orderly, and how that information must be incorporated into a fair value measurement.

Under Fair Value Measurements and Disclosures, various inputs are used in determining the value of the Funds' investments. These inputs are summarized into three broad Levels as described below:

- Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities that the Funds have the ability to access.
- Level 2 Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.
- Level 3 Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Funds' own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs to measure fair value may fall into different Levels of the fair value hierarchy. In such cases, for disclosure purposes, the Level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest Level input that is significant to the fair value measurement in its entirety.

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities. The following is a summary of the inputs used, as of May 31, 2024, in valuing the Funds' assets carried at fair value:

ACR Opportunity Fund	Level 1 Level 2		L	evel 3	Total			
Assets								
Common Stock

^{*}The Fund did not hold any Level 3 securities at period end.

The following is a reconciliation of assets in which significant unobservable inputs (Level 3) were used in determining value:

	ACR Opportunity Fund
Beginning balance November 30, 2023	\$ 829,710
Transfers into Level 3 during the period	-
Transfers out of Level 3 during the period	-
Total realized gain/(loss)	-
Change in unrealized appreciation/(depreciation)	(255,156)
Net purchases	24,000
Return of Capital	-
Net sales	-
Balance as of May 31, 2024	\$ 598,554

The following table presents additional quantitative information about valuation methodologies and inputs used for investments that are measured at fair value and categorized within Level 3 as of May 31, 2024:

ACR Opportunity Fund

Asset Class	Fair Value at 5/31/2024	Valuation Technique(s)	Unobservable Input	Range of Input	Weighted Average of Input	Impact to Valuation from an Increase in Input ⁽¹⁾
			Estimated		·	-
Preferred		Asset	Recovery			
Stocks	\$598,554	Approach	Proceeds	\$186.97	\$186.97	Increase

⁽¹⁾ This column represents the directional change in the fair value of the Level 3 investments that would result from an increase to the corresponding unobservable input. A decrease to the unobservable input would have the opposite effect.

Note 10 - Market Disruption and Geopolitical Risks

Certain local, regional or global events such as war, acts of terrorism, the spread of infectious illnesses and/or other public health issues, financial institution instability or other events may have a significant impact on a security or instrument. These types of events and other like them are collectively referred to as "Market Disruptions and Geopolitical Risks" and they may have adverse impacts on the worldwide economy, as well as the economies of individual countries, the financial health of individual companies and the market in general in significant and unforeseen ways. Some of the impacts noted in recent times include but are not limited to embargos, political actions, supply chain disruptions, bank failures, restrictions to investment and/or monetary movement including the forced selling of securities or the inability to participate impacted markets. The duration of these events could adversely affect the Fund's performance, the performance of the securities in which the Fund invests and may lead to losses on your investment. The ultimate impact of "Market Disruptions and Geopolitical Risks" on the financial performance of the Fund's investments is not reasonably estimable at this time. Management is actively monitoring these events.

Note 11 – New Accounting Pronouncements and Regulatory Updates

Effective January 24, 2023, the SEC adopted rule and form amendments to require mutual funds and exchange-traded funds (ETFs) to transmit concise and visually engaging streamlined annual and semiannual reports to shareholders that highlight key information deemed important for retail investors to assess and monitor their fund investments. Other information, including financial statements, will no longer appear in the funds' streamlined shareholder reports but must be available online, delivered free of charge upon request, and filed on a semiannual basis on Form N-CSR. The rule and form amendments have a compliance date of July 24, 2024. The Funds have adopted procedures in accordance with the SEC's rules and form amendments.

In March 2020, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2020-04, Reference Rate Reform (Topic 848) – Facilitation of the Effects of Reference Rate Reform on Financial Reporting. The amendments in the ASU provide optional temporary financial reporting relief from the effect of certain types of contract modifications due to the planned discontinuation of the London Interbank Offered Rate and other interbank-offered based reference rates as of the end of 2021. The ASU is effective for certain reference rate-related contract modifications that occur during the period March 12, 2020 through December 31, 2022. In December 2022, the FASB issued ASU No. 2022-06, Reference Rate Reform (Topic 848) – Deferral of the Sunset Date of Topic 848, which extends the period through December 31, 2024. Management has reviewed the requirements and believes the adoption of these ASUs will not have a material impact on the financial statements.

Note 12 - Events Subsequent to the Fiscal Period End

The Funds have adopted financial reporting rules regarding subsequent events which require an entity to recognize in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the balance sheet. Management has evaluated the Funds' related events and transactions that occurred through the date of issuance of the Funds' financial statements.

There were no events or transactions that occurred during this period that materially impacted the amounts or disclosures in the Funds' financial statements.
